

Centurion

The Vessel

MV CENTURION:

MV Centurion is a large liveaboard vessel built for the comfort and pleasure of its guests. The vessel is fully air conditioned, 24 hours a day, the large saloon seats all our guests in one seating. MV Centurion has three levels, so our guests never feel crowded, with areas to get out of the sun or rain. All cabins have large beds with comfortable mattresses, cabins also, have reading lights and 240 volt outlets. The vessel has six shower/toilets close to the cabins, therefore no waiting. You can fish from both sides of the vessel or the large undercover aft deck right next to the beer esky. The vessel has a large fishing platform at water level to land the big ones. [we also have dories].
