

Centurion

About

Our trips

Centurion is offering a variety of trips in different locations along the Great Barrier Reef.

At certain times of the year we will be operating from different sectors.

We feel by offering a variety of areas our guests can choose a location to suit their needs and also be able to visit different areas whilst still being able to cruise with Centurion.

Compare our itineraries, we do not consider returning at 6:00am on your last day, to be your last day, our trips always return in the pm of the last day and we position our spots so you get to fish on the last day.

All trips customized to give you the most out of your fishing time, so compare.
